Commendation For Brutalities From Yamashita

### MORE HORROR TALES HEARD AT TRIAL

By PAT ROBINSON  
(U. S. Staff Correspondent)  
MANILA, Nov. 3.—Lt. Gen. Tomoyuki Yamashita was directly linked with war crimes for the first time today by testimony that he commended a brutal Jap police unit for success in quelling Filipino guerrilla activities.

The direct testimony against the former commander of Jap forces in the Philippines was given by Fernan Miyasaki, a Filipino citizen of Japanese parents.

Inhuman Water Cure  
Miyasaki, who had acted as interpreter for the military police unit, said the "success" of the guerrilla war was achieved by the inhuman water cure administered to Filipino guerrilla suspects.

Yamashita was linked with these activities, the interpreter testified, by a letter the general wrote commending this action.

Miyasaki told the U. S. Army commission in judgment of Jap war crimes that he had witnessed the water cure and the use of poison gas.

The removal of Lt. Gen. Yamashita from the Philippines and his arrest by the U. S. Army in Manila, he said, was a "miraculous" escape.

By PHILLIPS J. PECK  
(U. S. Staff Correspondent)  
WASHINGTON, Nov. 3.—A threat of independent unions to picket next week's labor-management parley pointed up today one of the conference's biggest jobs—that of "selling" its decisions once they are made.

Both labor and management delegates will have the task of promoting acceptance of any ultimate agreement among the thousands of unions and employers not directly participating in the meeting.

One conference official said: "Many are represented only by symbol. It is our hope that the judgments which come out of the (Continued on Page Two)

## Congressmen Will Vote On Future Of Probers Committee

Retention Or Abolishment Of Un-American Activities Committee To Be Decided Soon

WASHINGTON, Nov. 3.—(INS)—Congressmen will get a chance soon to decide whether they wish to retain or abolish the House committee on un-American activities.

Rep. Patterson (D-Calif.) disclosed today that he will file a petition November 13 to permit the House to vote on a resolution ending the committee.

The resolution must be signed by 218 members, a majority of the House, to become effective.

It discharges the House rules committee from further consideration of a resolution sponsored by Rep. Hook (D-Mich.) which changes the rules of the House so as to eliminate the un-American activities committee, created last January.

If signed by the necessary number of members, the resolution will automatically be placed before the House for a vote.

## Home Front War To Win

WASHINGTON, Nov. 3.—(INS)—J. T. Tripp, president Pan-American Airways, says Americans can give their veterans a complete victory by purchasing Victory Bonds. His statement follows:

Funds are needed to bring our righters home, for mustering-out pay, for rehabilitation. We owe our veterans a complete victory, a victory that can be bought with Victory Bonds."

NEW YORK, Nov. 3.—(INS)—Sixty thousand school kids who visited the battlefields of Missouri Monday were charged with having caused more damage to the state than the combined efforts of the entire Jap fleet and air force during the entire war.

"What these kids did to this ship is incredible," said the Missouri executive officer, Cmdr Arthur E. Spina. "Hundreds of them came aboard with their screwdrivers and wrenches hidden in their clothing."

The widest stunt of all was the pulling of a general fire and battle stations alarm. It had the crew in a state of confusion until the ship was shut off the clatter.

## Charge Some Pearl Harbor Records Gone

Republicans On Committee  
Charge Some Records  
Missing Or Destroyed

WASHINGTON, Nov. 3.—(INS)—The Pearl Harbor investigating committee in the midst of wide-open discussion on procedure was assured today by the late President Roosevelt's secretary that its personal papers were available to the committee at any time.

Committee members indicated that such assurance had been given by Miss Grace Tully, who is in charge of all of Mr. Roosevelt's personal papers covering his 12 years as president.

President Truman had promised that the Roosevelt records would be open to the committee but until Friday there had been some question on the need for accompanying permission from the Roosevelt estate.

Charge Records Not Open  
Republican members of the committee today on a spirited debate in the Senate on the Pearl Harbor tragedy after the majority refused to give members blanket authority to inspect government records on the Jap sneak attack.

Sen. Brewster of Maine and Ferguson of Michigan, two Republicans on the group charged that records pertinent to the incident were reportedly missing or destroyed.

Senate Majority Leader Barkley, chairman of the committee, said the group had voted five to three not to permit members to call for and examine official records without getting authority from the full committee.

Ask Volunteer Information  
Instead, the committee agreed to request President Truman to permit army and navy officers and government employees to "volunteer" information when hearings start November 15.

Ferguson in explaining the defeated motion, said that Brewster had asked committee approval to go to the Federal Communications Commission and was determined to determine how Pearl Harbor records were kept and to check on reports that certain documents had been destroyed.

Brewster and Ferguson charged that the Truman administration has blocked a full investigation of the Pearl Harbor disaster.

## City And County Officials Will Be Elected Tuesday

Tuesday, November 6, is election day throughout Pennsylvania but local interest engendered in the campaign is slight, due to the fact that most of the Republican candidates have the Democratic nomination as well.

Two state superior court judges are to be named, a judge for Lawrence county, a register and recorder, two jury commissioners, a county auditor, two city councilmen, a city controller, three school directors for six years and one for four years, a number of aldermen and officers of the election boards.

In addition, four amendments to the Pennsylvania constitution are up for vote. The first freezes all motor and gasoline taxes in the highway fund, the second would elect officials of the election boards for such terms as the legislature may name. The third would make specific effort to succeed themselves and the fourth would raise the bonded indebtedness limit of the state from one million to 50 million dollars.

# Seek To Arrange Greyhound Bus Strike Conference

WASHINGTON, Nov. 3.—(INS)—The Labor department awaited today a reply from Greyhound officials on its invitation to company and union representatives to reopen their bus strike parley in Washington on Monday.

The AFL's Amalgamated Association of Street, Electric Railway and Motor Coach Employees accepted the invitation but there was no immediate answer from company officials.

The department's conciliation service invitation, setting the meeting at 2 p. m. EST Monday, pointed out that in view of the urgent need for transportation "it was the duty and the responsibility of the concerned parties to reopen negotiations to speed the end of the strike."

R. B. Armstrong, a union official, meanwhile advised all Greyhound unions with existing contracts to "stay on the job" and not join the 4,000 in the walkout that has crippled bus service north of Washington and east of Chicago.

Armstrong's order averted the possibility that capital Greyhound might join in a sympathy walkout.

The Industrial division, largest of all, has raised \$20,386.95, which is about half of its quota. Another large division, the homes, has contributed only one-third of its quota.

Wrong Way To Protest

In discussing the lagging pledges in this drive, Campaign Chairman W. E. Langan pointed out that no matter what criticism certain persons may have of general policies adopted by the organization, it is unfair to express that disapproval by cutting the subscriptions to the New Castle agencies which exist only by the financial support of local people.

"Protests are a democratic privilege," continued Mr. Langan, "but why take it out on the person who needs immediate aid, on the soldier overseas who waits for entertainment and comforts from home, on local orphans, and patients in local hospitals? Protests can be registered very effectively in other ways. For example, each contributor has the right to indicate on his subscription card exactly which agencies are to share in his gift."

# INDIVIDUALS TO GET REDUCTIONS IN INCOME TAX

(Continued From Page One)

uary 1, these weekly payroll deductions will be reduced to conform to the new, lower tax rate.

The method used by individuals to compute their annual tax remains identical with present law—only the rates are changed. Thus, on March 15, 1947, the taxpayer will finally figure out his Federal tax on 1946 income, and pay the difference or claim a rebate from the treasury department.

There will be no added computation on the new forms, however, this percent "discount" is given to individuals after they have figured their liability. This "discount" will apply only on 1946 earnings.

The withholding rates have taken this five percent reduction into consideration, however, and in all probability, withholding on 1946 individual earnings will closely approximate the final tax debt as at present.

Deductions Identical

On the matter of personal exemptions, the work of the taxpayer has been simplified, as the deductions are now identical for both the "normal" tax and the "surplus" tax.

Under the wartime law, the "normal" tax did not provide for deductions for dependents. In the new law, however, the deductions are identical, \$500 for the wage earner, with an additional \$500 for his wife and each child or other legal dependent.

Thus, a married man with two children could take deductions for \$2,000 for himself and his dependents.

In case where both man and wife earn incomes, each can claim only his own \$500 deduction. If there are children, either can take the whole of the deduction for the dependents, or they can divide it.

It is optional whether they file individual returns or pool their incomes and file a single, joint return.

## INVISIBLE SOIL Is Destructive To Your FUR COAT

The grime, smoke and soot, which in most cases is not visible, is very destructive to the sheen, color and lustre of the fur nap. This soon spoils the outer appearance. Have your fur coat cleaned, glazed and oil treated at Smith's. We use the regular furrier's method.

conference will be sold and bought by the people not represented. It is the only hope of the conference.

Can't Make Commitments

Charles E. Wilson, General Motors president and one of management's 18 delegates, acknowledged that neither the representatives of management nor those of labor would commit their own organizations to the conference, which will be opened by President Truman Monday.

Wilson said the participants in the conference, which will be opened by President Truman Monday, are not coming to Washington to make commitments, but to make friends which will be laid before the country. The parley was called to avert a state of minimum industrial strife.

The lack of representation on the part of independent unions was protested by Edward G. Wilson, chairman of the Independent unions of New Jersey. He wired secretary of labor Schwabach that Independent unions had been given the brush-off.

Half Million Not Represented

Wilson said.

John I. Lewis, Philip Murray, William Green and other labor leaders will have to speak in the back door or cross the picket line in order to be present at the conference.

Representatives of more than half a million independent union workers from various states whose petitions to participate in the conference have not been considered will be in the market line Monday.

Pre-conference meetings of the delegates were attended today and tomorrow in formal conferences and sessions. CIO President Murray met with his delegation today. The AFL group will convene tomorrow.

Ask 15,000 For Opinions

The National Association of Manufacturers sent 15,000 telegrams to employers asking their views on creation of new federal machinery to handle post-war labor disputes.

Walter P. Reuther, vice-president of the United Automobile Workers and leader of the UAW's fight for a 30-percent wage boost from G. M., asserted that CIO delegates will

There is where the smart hostess differs from the ordinary one. She uses a little touch of common sense. They color the whole party, and to the cheerfulness of the guests they add a taste in decoration that is delightful.

## What kind of bath shall I take?

You may think a bath is just a bath—merely a matter of running water into the tub, working up a good lather, and finishing off with a turkish towel. . . . Actually, a bath is what you make it—relaxing, refreshing, cleansing.

Get the most out of your daily bath by choosing the kind that meets your needs.

ers: the manufacturer was allowed to raise his price to meet higher wages, and the worker got his "raise". But the luckless wholesaler and retailer simply had their margin cut or cancelled, thus being subjected to confiscation for the benefit of the worker and the consumer.

The fact seems to be that in the present industrial situation the administration has no policy or program. It wants to humor the labor organizations to retain their politi-

cal favor. But it knows that this humoring is certain to bring inflation which easily could get out of control. The result is that Washington continues to wobble while disunity grows and reconversion halts.

Whatever opinion the citizen of this nation may have regarding Warren G. Harding and his administration as President, Mr. Harding did, in his 1920 presidential campaign, evolve this slogan: "Let us be done with wiggling and wobbling."

It might be well for the Republicans and all citizens dissatisfied with the way things have been run in the last twelve years to revive this slogan.

We are not interested in your politics, we are interested in your car. But if repair service were on the ballot next Tuesday we would say "Vote 'er straight for McCormick".

Our platform would be honest service, square shooting prices, and skilled mechanics in servicing your car. Of course it isn't on the ballot so we'll just have to tell you what you probably already know.

But if it were on the ballot, ours would be Les Kline and his skilled associates in our repair department.

## Hitler Put Blame On Marshal Keitel For Sorry Plight

Late (We Hope) Hitler Said Keitel Refused To Send Help To Besieged Berlin

LONDON, Nov. 3.—(INS)—To the last, Adolf Hitler insisted he was betrayed by the army high command and left to die in Berlin by the treachery of Field Marshal Wilhelm Keitel.

This was the substance of a British intelligence report disclosed in Berlin today, according to a Reuter dispatch.

In his last hours spent raving and ranting through his air raid bunker beneath the reichschancellery, Hitler found that he could trust only Grand Adm. Karl Doenitz.

This was shown, Reuter said, in radio messages between Hitler's headquarters and Doenitz on April 28 and April 30. British officials believe Hitler took his own life April 30.

The fuhrer complained that Keitel kept Hitler and his intimates isolated from the rest of the world and failed to organize reserves for the relief of Berlin, then being stormed by the Russians.

These messages, forming part of the "Flensburg documents," by which Hitler bequeathed the tattered shreds of the Third Reich to Doenitz, ordered the latter to take all measures to lift the siege of Berlin.

On April 30, Hitler wired Doenitz that the German troops in the capital were standing still instead of fighting. He ordered the admiral to "proceed most quickly and ruthlessly against all traitors."

## Emperor Hirohito Gives Away Palaces

TOKYO, Nov. 3.—(INS)—Emperor Hirohito today observed the Japanese national holiday Meijietsu by donating three detached palaces for use in furtherance of public health.

The Hama, Muke and Hakone detached palaces were donated, respectively to the Tokyo, Koke and Katsuna prefectures.

The holiday is in commemoration of the Emperor Meiji.

### THE PARENT PROBLEM

(Continued From Page Four)

have also, informed us frankly that we slipped in a few other directions "contrary to our theories."

After a child has had months or years in practice at lying to his parents, especially when "put on trial" is still not too late to make amends, provided the parents are willing to wait several weeks of months to see the good effect. Under the changed procedure, the youngster may suppose it is easy to lie when he pleases; but he hardly will continue if treated as advised.

#### Parent Judge

To the parent who has made it a habit to play judge, prosecuting attorney and sheriff, putting the child on the witness stand with a view to force him to confess, but is now convinced that this is bad procedure, let me advise:

Resolve to have no more such trials. Suppose the child is eight. In case you suspect he has done some wrong but can't prove it by objective evidence, apart from his testimony, say nothing and do nothing. Set the stage, if at all possible, so you can be sure he never can do the deed without seeing him do it. Then tell him what he did and deal with the matter as you see fit.

Don't put him on trial. Don't try to make him "own up." Don't even ask him if he did it. Henceforth, try to make him feel he is loved and understood as never before.

### THE GREAT GAME OF POLITICS

(Continued From Page Four)

labor wish for—No Change—unless the changes should be the flimsy ones proposed in the McMahon bill which the labor politicians want the conference to endorse. Possibly it will, but if it does that will mean No Change, too.

PERHAPS, IT is too much to expect of a politician but how refreshing it would have been had the President made on Tuesday the speech Mr. Donald Richberg made on Wednesday. Mr. Richberg was the deputy director of the old NRA in the early New Deal days. He is a lawyer, not an industrialist, and he is not a candidate for anything. His record is one of friendliness to labor, and in his Chicago speech he made it clear he does not favor compulsory arbitration; that he does favor collective bargaining; that he believes in the right to strike. What he does favor, though, is establishment by law of a rule of reason in labor disputes whereby both sides are required to listen to reason before they begin to fight.

MR. Richberg wants the government to provide a machinery of mediation, voluntary arbitration and public fact finding as an aid in adjusting controversies and affect the public interest. "And proposed law," he said, "that does not prohibit strikes, lockouts or any one-sided action during the period of required negotiation and mediation will be a sham and a delusion. Every time you hear of a so-called voluntary peace program in which no legal duty is imposed on labor or employers to refrain from fighting until all reasonable efforts at peaceful settlement have been exhausted, you are entitled to laugh out loud or to boo." This Richberg statement is indisputably true but it is one few men in politics have the courage to stand behind. True, also, is the distinction he draws between political strikes and economic strikes.

THE political strike, Mr. Richberg

said, has been used to destroy governments in other nations. Several times in recent months it has slapped its ugly threat across our faces. It has nothing to do with wages. It is called to gain some special advantage and control

wholly unconnected with wages. He gave the recent telephone strike and the recent coal strike as examples. A political strike is a revolutionary act, an attempt to control government by force and should be prohibited by law. That can and should be done. Also, he believes

that in strikes which a fact-finding board finds impose severe hardship upon a community by the stoppage of an essential service, such as a public utility, or of a vital necessity, such as food and fuel, compulsory arbitration should be provided after all other means have failed. Mr.

Richberg said these things and a lot more, most of which are to be found in the Hatch-Burton-Hall bill, which he had a good deal to do with which many think is the soundest, fairest most constructive piece of labor legislation introduced in Congress in a long time.

Yet, it has slight chance of passing. The labor lobbies are powerful, hostile and it has no Administration support. It isn't anti-labor, but it makes no difference. Labor is against it just the same. Labor wants NO Change.

## Blame Extortionist In Detroit Murder

Bank Account Of Murder Victim,  
Wife Of Army Major, Found  
To Have Dwindled

DETROIT, Nov. 3.—(INS)—Police worked on theory that Mrs. Albert Rose Young, wife of an army major returning home from overseas, had been murdered by an extortionist.

Detroit Oakland county and state detectives, pressed the extortionist angle when it was discovered the slain woman's bank account had unaccountably dwindled steadily since last December.

Held for further questioning on Mrs. Young's background were two of three persons who identified the body. They are George A. Duke Jr., 31, a foreman at the Carrier Tool and Die company, where Mr. Young was employed, and Mrs. Ruth Hawkins, a fellow worker.

Police believed that Mrs. Hawkins was the last person to see Mrs. Young alive.

Mrs. Young's death came within a matter of hours after she received word that her husband was en route home after two years overseas. She had planned to go to New York to meet him. He is due to arrive today or tomorrow.

The suspected extortionist, according to Capt. Frank Nelson of the Patina police, is a well-dressed man who was frequently seen in Mrs. Young's company but whom her friends did not know. The slain woman's body was found Wednesday in the Clinton River near Pontiac, a bullet wound in her head.

First Congregational Minister Begins Fifth Year Of Pastorate Here

Rev. Thomas J. Jones has planned a special service at the First Congregational church for Sunday evening at 7:30 o'clock. This meeting is in observance of the beginning of Rev. Jones' fifth year as minister of that congregation. The local pastor came here from the First Congregational church of Morristown, New York City.

During his ministry here a large proportion of the members of the former Emmanuel Baptist church of New Castle united with the church. This merger of membership has given the people of Welsh tradition one united church.

An invitation is extended by Rev. Jones to those who have joined the First Congregational church during his ministry to attend the communion service Sunday. He will review some of the accomplishments of the church and will give a challenge for the future.

Thomas Jefferson gave the presidential Democratic party the name of Republican party in 1792.

## DON'T FOOL YOURSELF-- THIS ONE IS IMPORTANT!

To neglect to vote next Tuesday because there are few contests for offices is a weakness we cannot afford just now. There are four amendments to the constitution that deserve your attention.

More important, every Republican should vote Tuesday as a protest against the extravagance, the lack of decision and the continued vacillation of the present national administration. Democracies and the freedoms they enjoy can be lost by the apathy of the voters. Too long have we been giving up our freedom of action to a government that is constantly striving towards centralization, towards leftism, towards more and more untried crackpot theories.

Vote Republican on Tuesday and register your protest.

County Chairman.

### New Buick Cars Placed On Display At Lawrence Auto

Buick's first post-war cars, the new models for 1946, are now being placed on exhibition by Lawrence Auto Sales Co., local Buick dealer at 101 S. Mercer street.

Three lines of eight-cylinder cars are being introduced—Series 30 Super on 124-in. wheelbase, Series 70 Roadmaster on 129-in. wheelbase, and Series 40 Special on 121-in. wheelbase. All incorporate important changes in appearance, design, and performance as compared with the similarly numbered models of 1942—the latest to be introduced prior to the war.

First off the line and first to be shown are the Series 30 Super cars made in four-door sedan, two-door sedan, convertible coupe, and estate wagon styles each having six-passenger capacity. The four-door sedan and the estate wagon are now in production with other body styles to follow shortly.

Material advances in styling as well as functional design are immediately apparent in the new Buicks. Good highways are to everybody's advantage. Whether or not you own a car, good highways are necessary to your way of life. You can guarantee this source by voting YES on Amendment number one on your ballot next Tuesday. Passage of the amendment will keep the motor and gasoline taxes where they belong, in the highway fund.

Vote yes and expand our highway system. Vote YES and be sure your motor and gasoline taxes stay where they should.

### WASHINGTON IS BECOMING MORE NORMAL

(Continued from Page One)  
tion service had been set up to make America understand British problems. British procurement agencies had already been in operation since the outbreak of the European war in 1939.

United Nations members opened offices all over the city. The Netherlands took over old mansions and office buildings. So did the British, who also took over some highly prized apartment houses in a housing-shortage city.

**Agencies Dissolving**  
Now these agencies are dissolving. Every British plane aimed for home is loaded up with employees designated by the British embassy. The British information service is re-organizing its Washington office and will shortly make New York its headquarters.

The air, military and economic missions of other governments also are gradually being closed down.

Hereafter foreign representation is expected to be limited increasingly to trade and financial channels.

But these activities, outside the political field, are expected to center in the country's great commercial centers of New York, Chicago, Boston and San Francisco.

### Ask Hunters To 'Go Easy' On 200 Carrier Pigeons

STATE COLLEGE, Pa., Nov. 3.—(INS)—Hunters in Central Pennsylvania were asked today to "go easy" on the 200 carrier pigeons the U. S. Army Signal Corps sends aloft in experiments at the Pennsylvania State college.

"Our birds are flying within a 100-mile radius of State College," reported Prof. Henry L. Yeagley, in charge of the experiments. "We are afraid that hunters may undo valuable research and cause great loss to this continuing military work." He said the pigeons could not be withdrawn for the duration of the hunting season "because it is important for them to be in the air right in this period."

## IT'S America's Great Victory Loan!

Here it is—a brand new Bond issued in honor of Franklin D. Roosevelt and the Victory he helped us win.

SO YOU THINK THE WAR'S OVER? It isn't—not for more than 300,000 wounded. Those men are still fighting to recover what they gave up for you. We must take care of our own—the men we don't see marching in our Victory Parades. And every step that speeds a man from battle wounds to health is costly.

It's easy to see why the most important Bonds you've ever bought are the Victory Bonds you buy today. Yes—and it's true that you get back \$4 at maturity on every \$3 you invest on every "E" Bond you own. What counts most, though, is that more than 300,000 wounded need your financial help in a great big way. Buy for them in America's Great Victory Loan.

## Psychiatrist Says America Must Prove Democracy Works

Dark Days In World Foreseen Unless America Sets Good Example For Other Nations

Unless America proves that democracy and the American way of life are workable throughout the world, there are dark days ahead, Dr. Basil D. Orris, psychiatrist, of Chicago, told members of the Executive club at their dinner meeting in The Castleton Hotel Friday evening.

Dr. Orris stated that he was disturbed by the trend in this country for everyone to be anti-something and that in his opinion the only antidote was to develop a strong pro-American attitude.

He stated that everyone in the country has a right to criticize anything, but that criticism should be constructive, and unless one had a better solution to the problem, he should keep his criticisms to himself. Before offering criticism, he said one should sit down and think over the problem.

There are fifth columnists and saboteurs in this country who are committing moral sabotage, today, and can cause us to lose the war even though peace is signed. There are Americans who claim to be more than 100 per cent American, who are attempting to turn religious against each other, stir up antagonistic attitudes among those of different racial stock, and to sow the seeds of disintegration where every man hates or distrusts his neighbor, to the point that any demagogue can come in and take over.

He defined the American way of life as that whereby any human being has the right to get an education, marry whomever he pleases, and rear his family in security. But unless this is turned into action, it is just a theory. If we embark on a strong pro-American program, it may be the torch which will light up the dark days ahead.

Dr. Wilbur E. Flannery, president of the Executive club, announced the next meeting for December 4 when Ernest R. Rossi will discuss "Our foolish neighbors."

Bill Nelson, high school senior, extended an invitation in behalf of the school system, for parents and friends to visit the schools during American Education Week, November 11-17.

## Prisoner Of Japs Armistice Speaker

Dr. John Coventry Smith, Prisoner For 19 Months, To Speak To Service Men

James Fleisher, secretary of the Armistice Day dinner committee, announced today that Dr. John Coventry Smith, a prisoner of the Japs for 19 months, will speak at the annual Armistice Day dinner to be held Saturday night, November 10, in The Castleton Hotel.

Dr. Smith is now a pastor of Mt. Lebanon, Pa., and at one time was stationed in Ellwood City. For thirteen years he was in Japan and knows the country and the customs. He will speak upon the subject "Another War With Japan."

Captain Roger W. Rowland has been named as the hostmaster of the evening. Service men of both world wars are asked to get their reservations early, through the American Legion or the VFW.

## Hunting Fatalities Increased To Five

PITTSBURGH, Nov. 3.—(INS)—The toll of first day hunting fatalities rose to five today with the death of 14-year-old Darrell Kammerdiner, of Clairton county, who was killed by accidental discharge of his own gun.

Herman Long, 18, of Pinedale was reported the first victim of the third day of the season. Long was in a serious condition in a Chalfont hospital suffering from the loss of blood and shock following a high wound.

Rata throughout Western Pennsylvania is expected to curtail the number of small-game hunters in the field.

## New Supply Of Hunters' Licenses Received Here

## Four Veterans Hospitals Will Be Built In State

HARRISBURG, Nov. 3.—(INS)—James P. Murray, commander of the state American Legion, assured Legionnaires at Harrisburg today that four new veteran hospitals would be constructed in Pennsylvania and 1,600 additional beds installed in an institution under construction at Lebanon.

Speaking at the annual membership roundup, he said Pennsylvania congressmen and officials of the Veterans' Administration had reported blueprints were being drafted.

Construction will include an 1,500-bed neuropsychiatric hospital at Camp Reynolds; a 457-bed general medical and surgical hospital in Pittsburgh; a tuberculosis hospital with facilities for 600 patients to be located in the east; and a medical hospital at Wilkes-Barre with a capacity of 457 beds.

Under present plans, Murray said, the Aspinwall hospital will be converted into a tuberculosis sanatorium after the Pittsburgh building is completed. Expansion of the neuropsychiatric hospital at Gettysburg to provide a total of 1,987 beds was underway, he added.

Murray emphasized, however, that the program was "still inadequate."

## March Of Pennies At West Side School

The March of Dimes has been in town for a number of years so the pupils of the West Side grade school have chosen the monetary value of the march to the "March of Pennies."

Each year, the students of the school think of the Red Cross and the worthy work that it is doing and contribute to the cause. Rather than just passing the hat, the customary way of collecting donations, Mrs. Jane Patterson of the school faculty has devised a unique system that inspires each pupil to give.

The little program is arranged on the playground of the school with the children assisting by singing songs. The children, still singing, march to march around a bucket placed on the ground and toss in their contribution. The sum realized Friday afternoon during the exercise amounted to \$15.

Thursday evening a group met in the school and packed twelve Red Cross boxes to be sent to relieve children in Europe.

## P.T. Boat Sailor Gets Discharge

George R. Cole Jr., G.M. 2 C son of Mr. and Mrs. George R. Cole, of Adams street, and husband of Mrs. Margorie Cole of Northview avenue, has returned to his home here after discharge from the service.

Copier's Mate Cole, who has been in service for three years, served on a P.T. boat in the Pacific theater.

The first American newspaper was published in Boston in 1689. It bore the title, "Public Occurrences, Both Foreign and Domestic." It was suppressed by the Massachusetts governor after the first issue.

## Liberalization Of Rent Control Policy Is Coming

WASHINGTON, Nov. 3.—(INS)—OPA Administrator Chester Bowles announced a liberalized rent-control policy permitting higher rents for new housing to cover increased building costs.

Bowles explained that maximum rents on new housing will be based on prevailing rents for comparable accommodations on the maximum rent date.

In addition, they will include a "substantial allowance" to offset higher construction costs incurred in 1945.

The new policy applies to all construction started after the National Housing Administration stopped setting rents on new buildings Oct. 15.

Construction begun after Oct. 15 which had NHA rent ceilings set prior to that date are exempt.

Bowles said the new regulation is designed to speed the revival of rental construction and protect tenants from inflationary rents by encouraging the building of housing rental units.

The new policy is designed to assure ceiling rental on new housing units that are fair to both tenants and builders, Bowles said.

## Would Use Force To Outlaw Atomic Bomb In World

WASHINGTON, Nov. 3.—(INS)—Sen. Taft (R-O), proposed in the Senate Friday that the United Nations security organization be given authority to outlaw the atomic bomb by force if necessary.

During discussion of a proposal by Sen. McKellar (D-Tenn.) that the bomb be outlawed, Taft said:

"Of course, you cannot just outlaw the atomic bomb in the manner that war was supposedly outlawed in the Kellogg-Brand pact."

"But it could be outlawed," he continued, "through the United Nations organization, and an inspection system could be set up by that organization to go into any nation to see whether or not an atomic bomb was being constructed or plans were being made for the construction of such a bomb."

Taft suggested that the United Nations organization should have power to move against any nation attempting to construct an atomic bomb.

## Clothing Needed For Dutch People

YWCA Sponsors Local Drive For Immediate Collection For Holland

Cold winds sweeping over flooded Dutch fields this winter will find the people of the Netherlands as acutely chilled as the National Board of the Y. W. C. A. is sponsoring a special drive for new clothing and warm blankets to be shipped to Holland immediately according to a letter received by the local Y. W. C. A. from the Y. W. C. A. World Emergency office.

So far, only seven per cent of the absolute needs of the most desperate cases have been met, and the situation is becoming more critical. Through a special arrangement with the American Relief for Holland, the Y. W. C. A. will be able to ship large boxes of clothing to the Dutch. If local residents respond to the appeal for clothing, bedding, buttons, pins, needles, thread or soap, the supplies may be taken to the Y. W. C. A. at anytime before November 12, when the boxes will be packed.

Dutch people are not just people in a hole, but even if there were money, there is little for them to buy in Europe's winter. The Netherlands, completely stripped, there is little clothing, few blankets, scarcely any thread or soap, and no needles to use the little thread that is available.

Requesting New Castle residents to turn in the articles as quickly as possible, the Y. W. C. A. points out that when food is scarce, warm clothing may make all the difference between survival or death.

Miss J. Glenn Berry, chairman of the Y. W. C. A. World Fellowship committee which has charge of the annual World Fellowship dinner on November 13, is sending a letter to 60 Y. W. C. A. clubs and committee chairmen asking them to notify their groups and friends of the need.

## Oliver Randall Is Discharged

Randall, who is the brother of Mrs. James Burdette, plans to get mechanical work in the near future.

## Gen. Yamashita Directly Linked To War Crimes

Witness Tells Of Letter Of  
Commendation For Brutalities  
From Yamashita

### MORE HORROR TALES HEARD AT TRIAL

By PAT ROBINSON  
(U.S. Staff Correspondent)

MANILA, Nov. 3.—Lt. Gen. Tomoyuki Yamashita was directly linked with war crimes for the first time today by testimony that he commended a brutal Jap police unit for success in quelling Filipino guerilla activities.

This direct testimony against the former commander of Jap forces in the Philippines was given by Fermin Miyasaki, a Filipino citizen of Nipponese parents.

#### Inhuman Water Cure

Miyasaki, who had acted as interpreter for the military police unit, said the "success" of the water cure was achieved by the inhuman water cure administered to Filipino guerilla suspects.

Yamashita was linked with these activities, the interpreter testified, by a letter the general wrote commending this guerilla.

Miyasaki told the U. S. Army commission, sitting in judgment of Jap perpetrators of brutalities in the Philippines, that he had witnessed both the garrison's atrocities and the general's letter of praise.

This followed the forcible removal from the witness stand of Julieta Milanes, 17, pretty Filipino girl, who loosed a sudden torrent of invectives at the Japanese general.

#### "You Should Be Hung"

Quietly, she had testified to discovering the bodies of her slain father and brother and the beheaded remains of a friend. Suddenly—

## PA NEW OBSERVES

Street department forces have begun the annual task of hauling leaves from the streets of the city. This is a task of no small proportions each year. Most of the leaves are down.

From the number of accidents and fatalities reported in recent weeks in which persons who were seeking to cross highways in this vicinity were victims, it is apparent that more caution is needed on the part of pedestrians. Traffic is steadily increasing since the abandonment of rationing, and probably will continue this trend.

Restoring of the prewar bus stop system on the city lines has considerably slowed time on some of the runs, especially in the rush hours of the evening. Bus riders realize that stopping at every street intersection means slower progress in getting home from downtown in the rush hours.

Report comes that Leon O. Cover of Edenburg, who is probably Lawrence county's most mature hunter at the age of 84, went hunting on his farm Thursday in company with some relatives. He shot four rabbits, using four shells. He missed a rabbit with one shell, but made up for it by bringing down two running rabbits with another shell. Mr. Cover has lived in Lawrence county his entire life.

Easter is a long way off from now, but Pa News saw one local florist planting bulbs preparing for the Easter trade on Friday afternoon. He had just received a shipment from Holland, the first in a long time.

A truck load of evergreen was bringing quite a lot of "ohs and ahs" from spectators near the Post Office Friday afternoon.

## Independent Unions Threaten To Picket Washington Parley

By PHILLIPS J. PECK  
(U.S. Staff Correspondent)

WASHINGTON, Nov. 3.—A threat of independent unions to picket next week's labor-management parley pointed up today one of the conference's biggest jobs—that of "selling" its decisions once they are made.

Both labor and management delegates will have the task of promoting acceptance of any ultimate agreements among the thousands of unions and employers not directly participating in the meeting. One conference official said:

"Many are represented only by symbol. It is our hope that the judgments which come out of the (Continued on Page Two)

## Some Divisions In Fund Drive Lagging Behind

Greater Response Of Community Needed If Drive Is To Reach Goal

Although several important divisions are lagging far behind last year's record, a number of divisions are coming close to their quotas for the 1945 Community Chest and War Relief Fund campaign, according to totals reported at the luncheon in The Castleton hotel Friday.

The Charities division, under Mrs. Esther Eakin, has passed its \$500 goal, and the Printing division, under Robert M. Strickler Jr., needs to add less than \$200 to its present total of \$3,828 to fill its quota.

With a total of \$3,164, the Banks division, under Lauri G. Laurell is (Continued on Page Two)

Due to a change in the schedule, the automobile formerly used by Adolf Hitler which was to be on display here Sunday afternoon will not be here until Tuesday afternoon, November 6, it was announced today.

## Congressmen Will Vote On Future Of Probers Committee

Retention Or Abolishment Of Un-American Activities Committee To Be Decided Soon

WASHINGTON, Nov. 3.—(INS)—Congressmen will get a chance today to decide whether they wish to retain or abolish the House committee on un-American activities.

Rep. Patterson (D-Calif.) disclosed today that he will file a petition November 13 to permit the House to vote on a resolution ending the committee.

The resolution must be signed by 218 members, a majority of the House to become effective.

It discharges the House rules committee from further consideration of a resolution sponsored by Rep. Hook (D-Mich.) which changes the rules of the House so as to eliminate the un-American activities committee, created last January.

If signed by the necessary number of members, the resolution will automatically be placed before the House for a vote.

## More Will Benefit By Social Security

PHILADELPHIA, Nov. 2.—(INS)—Joseph J. Skorup, Jr., manager of the Philadelphia Social Security office said today new social security recommendations would extend benefits to approximately 25 million additional workers.

"During the five and one-half years in which monthly benefits have been paid to persons in this area the rolls have grown to include 28,145 persons," Skorup said. "Monthly benefits to persons in the Philadelphia area total \$573,677.12."

Social Security board recommendations outlined in the board's ninth annual report would include benefits to agricultural workers, private home domestic workers, self-employed persons, public employees and employees of non-profit organizations, Skorup reported.

## Home Front War To Win

WASHINGTON, Nov. 3.—(INS)—J. T. Tripp, president Pan-American Airways, says Americans can give their veterans a complete victory by purchasing Victory Bonds. His statement follows:

"Victory is here, but there is still a war to be fought on the home front, a war against depression, discomfort, despair. The war must be fought with dollars, your dollars. Funds are needed to bring our fighters home, for mustering-out pay, for rehabilitation. We owe our veterans a complete victory, a victory that can be bought with Victory Bonds."

## Two District Strikes At End

Four Major Walkouts Exist In District, Affecting About 9,000

(By International News Service)

Two Western Pennsylvania strikes were settled leaving the area with only four major walkouts affecting more than 9,000 workers.

A strike of nearly 500 Greyhound bus drivers, mechanics and garage employees virtually left bus transportation at a standstill with the exception of service through Miami, Fla., via Charleston, W. Va.

A 24-hour picket line was maintained at the Greyhound terminal and garage in Pittsburgh.

More than 3,000 employees at the Meatville plant of the Talon company remained struck over a wage adjustment sought by tool and die makers.

## Hunt Suspect In Detroit Murder

Warrant Issued For Larry Theis For Death Of Mrs. Alberta Rose Young

DETROIT, Mich., Nov. 3.—(INS)—Oakland county police issued a warrant today charging Larry Theis, object of a nation-wide search, with the first degree murder of Mrs. Alberta Rose Young.

The dead woman's former co-worker was sought after police records disclosed that he was arrested last June on a charge of swindling Mrs. Young out of \$4,500.

The 34-year-old victim's body was found in the Clinton river last Wednesday. Police said she had been shot through the head and the body thrown into the stream from an Avon township bridge.

The search for Theis was intensified when Edward Bell, private detective, told police that Mrs. Young told him Theis had threatened her life.

The quest spread to California after investigators were told that Theis (Continued on Page Two)

## Robert Burns Is Free Man Again

Absolute Freedom Given 'Fugitive From Chain Gang' By State Of Georgia

UNION, N. J., Nov. 3.—(INS)—Robert Elliott Burns, 54-year-old author of the book "I Am A Fugitive From A Georgia Chain Gang" entry, today was given freedom at home today after being pardoned by the state of Georgia.

Burns came back from Atlanta where his sentence for a 1922 hold-up was commuted by the Georgia parole and pardon board.

Burns' wife, Clara, and his six-year-old daughter, Frances, greeted him with kisses when he reached home. "The house was decorated with a sign 'welcome home, daddy,'" printed by Frances.

The freed man's other two children, Carol, 4, and Robert, 5, had been waiting for him all yesterday, but had fallen asleep from the day's anticipation and excitement.

## Report Nine Dead, 230 Injured In Riots In Cairo

Outbreaks Are Renewed In  
Cairo—Demonstrations  
In Alexandria Also

### POLICE DISPERSE RIOTING CROWDS (BULLETIN)

CAIRO, Nov. 3.—(INS)—Rioters smashed shop windows and clashed with police today in renewed anti-semitic outbreaks which coincided with Arab general strikes protesting the admission of Jews to Palestine.

The demonstrators were dispersed by police after converging on Cairo's main street, Sharia Soliman Pusha. Demonstrations in Alexandria were similarly curbed.

### Report 230 Injured

(A London radio broadcast heard by NBC said that according to an official announcement 230 persons, including 90 policemen, were injured in yesterday's riots in Cairo. Unofficial reports said nine were killed.)

Both sides counted their dead and injured today after more than 48 hours of flaming Arab-Jewish conflict in Egypt, Lebanon and Palestine.

Despite a last minute attempt by Egyptian Premier Mahmoud Fahmy Nokrashy Pasha to halt the explosive anti-Jewish outbreaks on the 28th anniversary, mobs smashed windows and looted Jewish shops.

Arab general strikes and riots were admittedly set off by anti-Palestine.

Senators of Michigan and Pennsylvania on the group charged that records pertinent to the incident were reportedly missing or destroyed.

Senate Majority Leader Barkley, chairman of the committee, said the group had voted five to three not to permit members to call for and examine official records without getting authority from the full committee.

Ask Volunteer Information

Instead, the committee agreed to request President Truman to permit army and navy officers and government employees to volunteer information when hearings start November 15.

Ferguson, in explaining the defeated motion, said that Brewster had asked committee approval to go to the Federal Communications Commission and war department to determine how Pearl Harbor records were kept and to check on reports that certain documents had been destroyed.

Brewster and Ferguson charged that the Truman administration had blocked a full investigation of the Pearl Harbor disaster.

EAST STROUDSBURG, Pa., Nov. 3.—(INS)—Mrs. Dorothy Aronson, of Philadelphia, was killed, and her husband, Samuel, was injured today when their car skidded on the highway between Moorestown and Wind Gap and crashed into a utility pole.

Police said the husband was driving when the accident occurred as the couple was headed toward Wind Gap about 9 o'clock this morning.

Mrs. Aronson was pronounced dead upon arrival at the East Stroudsburg hospital.

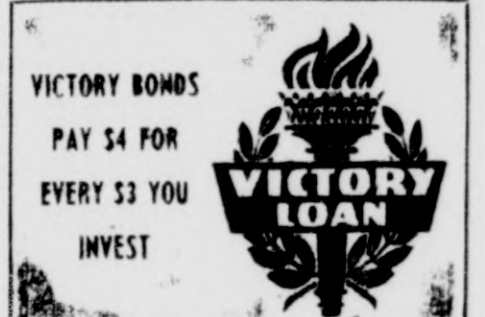

Aronson was treated for chest and hip injuries.

## Sixty Thousand School Kids Damage Missouri More Than Entire War

NEW YORK, Nov. 3.—(INS)—Sixty thousand school kids who visited the battleship Missouri last Monday were damaged today to have caused more damage to the mighty dreadnought in one day than the combined efforts of the entire Jap fleet and air force during the entire war.

"What these kids did to this ship is incredible," said the Missouri's executive officer, Cmdr Arthur F. Spring. "Hundreds of them ran aboard with pliers, screwdrivers and wrenches hidden in their clothing."

The widest stunt of all was the pulling of a general fire and battle stations alarm. It had the crew nuts until we de-energized the circuit and shut off the clatter.

## Charge Some Pearl Harbor Records Gone

Republicans On Committee  
Charge Some Records  
Missing Or Destroyed

WASHINGTON, Nov. 3.—(INS)—The Pearl Harbor investigating committee, in the midst of wide-open discussion on procedure, was assured today by the late President Roosevelt's secretary that its personal papers are available to the committee at any time.

Committee members indicated that such assurance had been given by Miss Grace Tully, who is in charge of all of Mr. Roosevelt's personal papers covering his 12 years as president.

President Truman had promised that the Roosevelt records would be open to the committee but until Friday there had been some question on the need for accompanying permission from the Roosevelt estate.

Charge Records Not Open

Republican members of the committee touched off a spirited debate in the senate on the Pearl Harbor tragedy after the majority refused to give members blanket authority to inspect government records on the Jap sneak attack.

Sen. Brewster of Maine and Ferguson of Michigan, two Republicans on the group charged that records pertinent to the incident were reportedly missing or destroyed.

Senate Majority Leader Barkley, chairman of the committee, said the group had voted five to three not to permit members to call for and examine official records without getting authority from the full committee.

## Japanese Need Permits To Enter Foreign Business

TOKYO, Nov. 3.—(INS)—Supreme Allied headquarters today directed the Imperial government to prevent and prohibit Japanese from entering into any "financial or business contract" with foreign companies without a permit.

Permits, the directive provided, may be issued by the Japanese government, but only after express approval by occupation authorities.

Dual purposes of the order, spokesmen said, was to permit control over Japs who obtain technical business connections.

Meanwhile, headquarters took of official cognizance of a sharp decrease in home island food production, occasioned by the rapid repatriation of Korean and Chinese forced laborers.

## Normal Relations With Brazil Today

WASHINGTON, Nov. 3.—(INS)—The United States adopted today a policy of normal relations with the new government of Brazil.

Secretary of State Byrnes announced that American Ambassador Adolf A. Berle, Jr., has been instructed to carry on normal relations with the new administration.

Following the resignation of President Getulio Vargas, reportedly at the instance of high-ranking army officers, President Jose Linhares assumed the office of the chief executive until the elections in Brazil December 2.

## City And County Officials Will Be Elected Tuesday

Tuesday, November 6, is election day throughout Pennsylvania but local interest engendered in the campaign is slight, due to the fact that most of the Republican candidates have the Democratic nomination as well.

Two state superior court judges are to be named, a judge for Lawrence county, a sheriff, a district attorney, a register and recorder, two jury commissioners, a county auditor, two city councilmen, a city controller, three school directors for six years and one for four years, a number of aldermen and officers of the election boards.

In addition, four amendments to the Pennsylvania constitution are up for vote. The first freezes all motor and gasoline taxes in the highway fund, the second would elect officials of the election boards for such terms as the legislature may name, the third would make sheriffs eligible to succeed themselves and the fourth would raise the bonded indebtedness limit of the state from one million to 50 million dollars.

Blisswood City votes upon a bond issue for \$150,000 to provide funds for a war memorial swimming pool and both houses.

## Urge Changes In Bill To Control Atomic Energy

WASHINGTON, Nov. 3.—(INS)—A minority report on the atomic energy bill by two members of the House Military Affairs committee branded the measure today as "seriously deficient" and urged Congress to adopt five important changes.

The two dissenting members, Reps. Holtfield (D-Calif.) and Price (D-Ill.) strongly criticized the form of the commission to be created to

## Civil War In China Raging Toward Climax

CHUNGKING, Nov. 3.—(INS)—China's civil war raged toward a climax today as U. S. warships reportedly landed certain government forces in Manchuria and some 20,000 Communist troops besieged the Suiyuan provincial capital of Kwei-sai.

As the Chinese Communist newspaper Hwa Jih Pao declared the United States "definitely unwelcome in the guise of policeman," Communist leader Gen. Chou En Lai confirmed reports that the fighting had spread to south China.

"Why Don't They Go Home?"

"America is welcome to try to bring about harmony between the Kuomintang and the Communists by political means, but is definitely unwelcome in the guise of policeman," the newspaper said. "Why don't they go home? Who can guarantee they won't be involved in the armed conflict?"

### Seek To Arrange Greyhound Bus Strike Conference

WASHINGTON, Nov. 3.—(INS)—The Labor department awaited today a reply from Greyhound officials on its invitation to company and union representatives to reopen their bus strike parley in Washington on Monday.

The AFL's Amalgamated Association of Street, Electric Railway and Motor Coach Employees accepted the invitation but there was no immediate answer from company officials.

The department's conciliation service invitation setting the meeting at 2 p. m. EST Monday, pointed out that in view of the urgent need for transportation "it was the duty and the responsibility of the concerned parties to reopen negotiations to speed the end of the strike."

R. B. Armstrong, a union official, meanwhile advised all Greyhound unions with existing contracts to "stay on the job" and not join the 4,000 in the walkout that has crippled bus service north of Washington and east of Chicago.

Armstrong's order averted the possibility that capital Greyhound and other non-striking divisions might join in a sympathy walkout.

### Leases Can Now Be Terminated With Government

Owners of properties in New Castle, which were converted to multiple dwellings during the war by the government, may now terminate their leases with the government under certain conditions. John A. Kervick, director of region 2, Federal Public Housing Authority, said today.

Any owner wishing information pertaining to the termination of the lease can get it by applying to the office of region 2, Federal Public Housing Authority, 270 Broadway (7) N. Y.

Unless the leases are not purchased by the owners, the properties will be operated by the government in order to achieve a maximum recovery of public funds, Mr. Kervick said.

### SOME DIVISIONS IN FUND DRIVE LAGGING BEHIND

nearing its \$5,600 quota, and the Schools division under Joseph Hartman has raised \$2,021.85 towards a goal of \$2,800.

The Industrial division, largest of all, has raised \$20,386.95, which is about half of its quota. Another large division, the homes, has contributed only one-third of its quota.

**Wrong Way To Protest**

In discussing the lagging pledges in this drive, Campaign Chairman W. E. Langan pointed out that no matter what criticism certain persons may have of general policies adopted by the organization, it is unfair to express that disapproval by cutting the subscriptions to the New Castle agencies which exist only by the financial support of local people.

"Protests are a democratic privilege," continued Mr. Langan, "but why 'take it out' on the person who needs immediate aid, on the soldier overseas who waits for entertainment and comforts from home, on local orphans, and patients in local hospitals? Protests can be registered very effectively in other ways. For example, each contributor has the right to indicate on his subscription card exactly which agencies are to share in his gift."

**Totals So Far**

Besides the totals announced above, the amounts raised by the various divisions to bring the fund to \$59,326.05 at the second report meeting are: auto, \$1,038; mercantile, \$3,877; construction, \$656; foods wholesale, \$425; foods retail, \$1,353.75; cigar and drug stores, \$278.50; hotels, \$299; restaurants, \$319; furniture stores, \$713.50; amusements, \$153; beauty parlors and barbers, \$148; building loan finance companies, \$126; insurance, \$889; dentists, \$212; funeral directors, \$410; hospitals and nurses, \$605; doctors, \$1,693; public employees, \$1,061; clubs, \$505; religious groups, \$369; miscellaneous schools, \$63; homes, \$4,923; utilities, \$4,743; transportation, \$1,287; bus and railroads, \$400; rural, \$370.

The goal for the drive is \$125,000.

### INDIVIDUALS TO GET REDUCTIONS IN INCOME TAX

(Continued From Page One)

nary 1, these weekly payroll deductions will be reduced to conform to the new, lower tax rate.

The method used by individuals to compute their final tax remains identical with present law—only the rates are changed. Thus, on March 15, 1947, the taxpayer will finally figure out his Federal tax on 1946 income, and pay the difference or claim a rebate from the treasury department.

There will be one added computation on the new forms, however, this "discount" is given to individuals after they have figured their liability. This "discount" will apply only on 1946 earnings.

The withholding rates have taken this five percent reduction into consideration, however, and in all probability, withholding on 1946 individual earnings will closely approximate the final tax debt as at present.

**Deductions Identical**

On the matter of personal exemptions, the work of the taxpayer has been simplified, as the deductions are now identical for both the "normal" tax and the "surftax."

Under the wartime law, the "normal" tax did not provide for deductions for dependents. In the new law, however, the deductions are identical, \$500 for the wage earner, with an additional \$500 for each child or other legal dependent.

This, a married man with two children, could claim deductions for \$2,000 for himself and his dependents.

In case where both man and wife earn incomes, each can claim only his own \$500 deduction. If there are children, either can take the whole of the deduction for the dependents, or they can divide it.

It is optional whether they file individual returns, or pool their incomes and file a single, joint return.

The Colonel notified the accused they will be allowed German lawyers to defend them.

The Dachau camp, where wanton cruelty ranged with the Nazi treatment displayed at Buchenwald and Belsen, was located 10 miles northwest of Munich. It was liberated by Gen. George S. Patton's Third Army during the memorable drive through Bavaria last spring.

The charges cover the period from January, 1942 to the time of the camp's liberation.

The prosecution is ready to put 25 material witnesses on the stand and present stacks of documentary evidence and numerous confessions. The proceedings also will cover Dachau's 32 subsidiary camps with 360 lesser personnel awaiting disposition after the main trial.

Although scores of Dachau chief offenders were killed or vanished, the 42 include several outstanding brutes such as Wilhelm Rupprecht, the last camp commander; Franz Trenkle, a guard who boasted that he himself had hung 90 Jews, and Dr. Klaus Schilling who used the inmates as guinea pigs for malaria experiments.

control the domestic end of atomic development, particularly its lack of control by the White House.

**List Changes**

They listed five recommended changes, with indications that all will come up for prolonged discussion when the House debates the bill in the coming weeks. They are:

1. The commission should be composed of full time, well paid members.

2. Members of the commission should be removable by the President whenever he deems it in the national interest.

3. The administrator should be appointed by the President and serve at his pleasure.

4. The administrator should be a civilian.

5. The government should be the exclusive producer and owner of plutonium and such other fissionable materials as may be defined from time to time in regulations issued by the commission.

**Can't Make Commitments**

Charles E. Wilson, General Motors president and one of management's 18 delegates, acknowledged that neither the representatives of management nor those of labor would come to the meeting in a position to commit their own organizations.

Wilson said the participants in the conference, which will be opened by President Truman Monday, are not coming to Washington to make commitments, but to make plans which will be laid before the country. The parley was called to devise ways of minimizing industrial strife.

The lack of representation on the part of Independent unions was protested by Edward G. Wilms, chairman of the Independent unions of New Jersey. He wired secretary of labor Schwelblich that Independent unions had been given "the brush-off."

Wilms said.

John L. Lewis, Philip Murray, William Green and other labor leaders will have to sneak in the back door or cross the picket line in order to be present at the conference.

Representatives of more than half a million Independent union workers from western states whose petitions to participate in the conference have not been considered will be on the picket line Monday.

Pre-conference meetings of the delegates were scheduled today and tomorrow to form conference policies. CIO President Murray met with his delegation today. The AFL group will assemble tomorrow.

## She Has the Know-How In Entertaining Friends

The smart hostess doesn't overlook a thing in thinking of the comfort of her guests. The food must be just so, the beverages must be iced just right, the decorations must be in harmony.

But here is where the smart hostess differs from the ordinary one. She uses flowers for that little touch of completeness. They color the whole party, they add to the cheerfulness of the guests and they evidence a taste in decoration that is delightful.

Flowers are the link that tie everything together at a party. You really shouldn't hold a party without them.
